DETAILED ACTION***Response to Arguments***

Applicant's arguments, see Remarks, filed November 5, 2004, with respect to the Examiner's objection to the drawings under 37 CFR 1.83(a), and any requirement for corrected drawing sheets in compliance with 37 CFR 1.121(d), have been fully considered and are persuasive. The objection of August 25, 2004 has been withdrawn.

Reason for Allowance

Claims 1-20 are allowed. The following is an examiner's statement of reasons for allowance: regarding independent claims 1, 11 and 18, respectively, the primary reason for allowance of the claims is the specific limitation, included in applicant's amendment filed November 5, 2004, as to the spring device only pressing the first peripheral device so that the first fixing device inserts into the screw holes of the first peripheral device to fix the first peripheral device and the device clasper only pressing and clamping on the second peripheral device so that the second fixing device inserts into the screw holes of the second peripheral device to fix the second peripheral device. These features, in combination with the rest of the elements or steps, are not taught or suggested by the prior art references. Claims 2-10 depend, either directly or indirectly, from claim 1 and are therefore allowable for at least the reasons provided above. Claims 12-17 depend, either directly or indirectly, from claim 11 and are also allowable for at least the reasons provided above. Lastly, claims 19 and 20 depend, either directly or indirectly, from claim 18 and are therefore allowable for at least the reasons provided above.

Art Unit: 2835

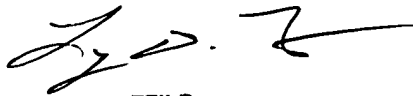

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
